

Form A

This document is Form A as indicated in section 3.3(1) of the local Zoning Bylaw. Please fill out the form below and include any additional documentation required under the application requirements. Please note that there are permitted and discretionary forms of development and the application requirements are different for each. Please contact your local municipal office or WaterWolf Planning if you are unsure whether your proposed development is permitted or discretionary.

Permitted Use Application

The Zoning Bylaw provides for permitted and discretionary forms of development in each zoning district. Every person is required to obtain a development permit before commencing any construction or use of land except as provided within the bylaw.

A development permit is not required for the following, but all other applicable provisions of the local zoning bylaw are to be followed:

- a) The maintenance of a public utility by the Municipality or crown corporation
- b) The construction of a public utility by the Municipality
- c) The installation of public utility on any street or other public right-of-way by the Municipality
- d) A municipal facility installed and operated by the Municipality
- e) Maintenance and repairs that do not include structural alterations
- f) The installation of fences or accessory buildings under 10 m²

Application Fees

A building permit is separate from a development permit. A development permit acknowledges the use of land and buildings and its compliance with the Official Community Plan and Zoning Bylaw. A building permit refers to building construction and compliance with the National Building Code of Canada and is governed by the Municipal Building Bylaw.
